## The Chalet of San Marco Condominium Association

### CHALET HURRICANE IRMA UPDATE

DATE: September 10, 2017

MEMO TO: ALL CHALET OWNERS

FROM: Patrick Romzek, Chalet Board President  
Rich Cassata, Chalet Manager

SUBJECT: Hurricane Irma Preliminary Update

---

Chalet Owners:

We wanted to provide you a preliminary update on the situation at the Chalet from hurricane Irma as of 7 pm this evening. As you probably know, Hurricane Irma made landfall at Marco Island today at 3:35 pm. The eye passed directly over Marco and the Chalet. Fortunately, all owners and staff that are onsite are safe and weathering the storm on the 4<sup>th</sup> floor where there are no windows. The building withstood the Hurricane relatively well but we do have damage to some of the building, and grounds.

**We have NOT done a full assessment of the damage nor have we inspected the individual units.**  
We request that you **not** call us at this time as we do not know the full extent of the damage and cannot assess the damage until the storm and surge have passed.

We will be doing a full assessment tomorrow. We will provide a further update as we know more. In the meantime, please continue to keep our staff and onsite owners in your thoughts and prayers. May God Bless our special community and keep us all safe.

Pat
